

Leaflet about the interim evaluation

At latest two years after the begin of the doctoral project, a discussion about this project should take place between the doctoral candidate and the two advisors / mentors. Therein should be assessed if the continuation of the project makes sense or should be adjusted and how.

Requirements for the interim evaluation are:

- A public talk in a seminar given e.g. in the course of a research group meeting that should be open also to guests. Also valid is a talk at a scientific conference.

- and -

- A report (size not specified) written by the doctoral candidate about the progress and outlook of the project work. This report can be replaced by a recent publication if it covers most of the results. There is no obligation to send this report to the TUM-GS / FGCh.

The first academic supervisor of the candidate confirms in a letter or with the attached form that an interim evaluation has been conducted. Please send this confirmation to the Faculty Graduate Center Chemistry.

Confirmation of an interim evaluation

The first academic supervisor

Ms. /Mr. _____ (name of the supervisor)

confirms that a discussion about the progress of the doctoral project of

Ms./Mr. _____ (name of the candidate)

took place recently.

Background of this talk was:

- a scientific talk with the title _____ held on the occasion of _____
- a report written by the candidate about the progress of the doctoral research project or
- an article with the title _____ submitted to _____ *(name of the journal)*

The supervisor of the candidate

- suggests the continuation of the project according to the known work plan
- suggests the continuation of the project with the following changes:

- recommends the end of the project due to inevitable problems

Signed in _____, dated _____

first academic supervisor
